PROCLAMATION(S)

TOWN OF EATON PROCLAMATION

2023 Holocaust Memorial Observances

WHEREAS, a sound knowledge of history is a foundation for participation in self-government, and our democracy does best with thoroughly informed citizens; and

WHEREAS, during the annual week of Holocaust Memorial Observances of Northern Colorado, occurring this year April 23-30, we have an opportunity to learn about the decisions, actions, and consequences of the Nazi government that intended to destroy groups of people deemed inferior and a danger to NAZI rule; and

WHEREAS, learning that Nazi propaganda, including age-old lies and scapegoating Jews and other groups, undermined democracy in Germany and led to World War II between 1930 to 1945, we can better recognize and confront racism, bigotry, intolerance, and hatred evident in some of our land today; and

WHEREAS, the State of Colorado requires that by July 1, 2023, that each school district Board of Education and charter school include Holocaust and Genocide education standards as a requirement for high school graduation; and

WHEREAS, the verified history of the Holocaust includes genocide of millions of Jews and others because of who they were and not for wrongs they did, offers an opportunity to reflect on the moral responsibilities of individuals, societies, and governments to prevent such atrocities; and

WHEREAS, the United States is experiencing polarizing tensions, often fueled by distortions of verifiable facts about political, economic, and pandemic issues. Over-zealous patriotism has endangered innocent people, while internationally, peace among nations is breached by war; and

WHEREAS, a well-educated community encourages appropriate, reasoned response to hateful speech and to reduce the potentiality of follow-up violence; and

WHEREAS, these Holocaust Memorial Observances are recognized and supported by the cities of Greeley, Evans, Eaton and by the University of Northern Colorado, Aims Community College, the High Plains Library District, high schools in Greeley and Eaton, as well as the Greeley Interfaith Association, Beth Israel Congregation, the Unitarian Universalist Church, and many other local organizations and individuals; and

WHEREAS, the Town of Eaton, Colorado commends these Observances, in the hope that we will be better prepared to address words or deeds of racism, bigotry, intolerance and hate. Whenever confronted with manifestations of hate, let us respond to it from a core of truth, humanity, and dignity so as lawfully to mitigate the spread of hateful actions.

NOW, THEREFORE, I, Scott E. Moser, by virtue of the authority vested in me as Mayor of the Town of Eaton, do hereby proclaim April 23-30, 2023, as *Holocaust Memorial Days of Remembrance*, and encourage the residents of Eaton to participate in these free activities, available in-person and virtually on YouTube and Zoom. Links to events and locations appear at https://www.holocaust-memorial-observances.org.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed the official seal of the Town of Eaton, Colorado, on this 20th day of April 2023.

ATTEST:	Mayor Scott E. Moser
Margaret Jane Winter, Town Clerk	

PUBLIC COMMENT

CONSENT AGENDA

CONSENT AGENDA

Motion made by Mayor Pro Tem Heid seconded by Trustee Griffith to approve the Consent Agenda. Motion carried 5-0.

- 3. Minutes February 16, 2023, Regular Board Meeting
- 4. Accounts Payable Invoice History Report February 2023
- 5. Financial Statements January 2023
- 6. Treasurer Report January 2023

PUBLIC HEARING Mayor Moser opened the Public Hearing at 7:11 p.m.

- 7. Venezia Italian Restaurant and Bar Hotel & Restaurant (City) Liquor License Mariam V. Saenz-Rodriguez and Maribel Estrada-Medina
- Agenda Item Report Packet Clerk Winter reported that the state requested a correction to the application on page 4., question 27., to change the percentage of the owner to 80% and add partner at 20% and to resend a copy of the lease that is legible. All the other requirements of the applicant have been met. Petition information follows: 94 Residential Individuals Petitioned; eighty in favor, zero oppose, one underage signature, six outside of petition area, two no last name, two no mark for favor/oppose, one no age, and one no age/town/mark for favor/oppose. 23 Business Individuals Petitioned; twenty in favor, zero oppose, one outside of petition area, and two no mark for favor/oppose. The investigation is complete, and requirements have been met. Recommendation to the board is to approve Venezia Italian Restaurant and Bar Liquor License. Miriam V. Saenz-Rodriguez and Maribel Estrada-Medina approached the board and gave a synopsis of their business history here in CO and dedication to their Venezia Italian Restaurant and Bar. Mayor

March 16, 2023

PUBLIC HEARING CONTINUED

Moser opened the floor for public comment, having none, the public comment and public hearing was closed at 7:16 p.m. Motion made by Trustee Winter, seconded by Trustee Gentry to approve the Hotel & Restaurant (City) Liquor License for Venezia Italian Restaurant and Bar. Motion carried 5-0.

SPECIAL PRESENTATION II

8. Library Quarterly Update – Library Director, Amber Greene presented a quarterly update with the library performance measures for the year end of 2022 and a 2023 work plan. The building has been remodeled and designed to keep pace with the evolving needs of the users. This includes a brand-new Makerspace equipped with creative technology for graphic design, 3D printing and laser cutting, as well as additional meeting and community gather spaces. New programs and events were also added to support digital literacy, cultural activities, civic engagement, and afterschool resources. The Director also covered the Library's Mission, Vision, and Values. Thursday, March 23rd will be the sculpture unveiling at 4:00 p.m.

NEW BUSINESS

- 9. Appointment of Brad James as Planning Commissioner Mayor Scott Moser introduced Brad James as the new Planning Commissioner Board Member. Brad approached the board and gave a brief history about himself and looks forward to being a member of the board. Motion made by Trustee Ledall, seconded by Trustee Winter to approve the appointment of Brad James as a Planning Commissioner with a four-year term. Motion carried 5-0.
- 10. Eaton Housing Authority (EHA) Exemption from Audit 2022 Anderson & Whitney, Alan Holmberg stated that EHA is a separate entity from the Town and a year ago, Senior Housing Options (SHO) organization was hired to handle the HUD housing project with the duties of the majority of payroll, accounts payable collecting rent and handling the HUD forms. Since SHO is a nonprofit organization, their auditing procedures differ from the Town's and local municipalities. EHA brings in less than \$750,000 in rent and HUD subsidiaries and does not spend over \$750,000 in expenses, the recommendation is to file an audit exemption for the fiscal year of 2022 with the State of CO.
- Resolution No. 2023-05 Eaton Housing Authority Exemption from Audit 2022

Motion made by Mayor Pro Tem Heid, seconded by Trustee Ledall to approve Eaton Housing Authority Resolution 2023-05 An Exemption From Audit for the Fiscal Year 2022 for the Housing Authority of the Town of Eaton. Motion carried 5-0.

- 11. Cemetery Funding/Expansion Phase I Assistant Town Administrator, Greg Brinck stated that staff is seeking guidance from the Board on the current expansion project and future funding of the cemetery. The Town received three competitive bids from the published RFB. The bids were significantly higher than anticipated. The Town budgeted \$250,000 for the phase I project but bids came in at \$500,000 and higher. The lowest bid for the phase I expansion exceeds the project budget by \$246,759. The cemetery is a department within the General Fund and is subsidized to meet its operational and capital needs. The Board may want to direct the staff to bring in additional revenue and control expenses. The Board continued the discussion about the rate structure for spaces with non-residential vs residential, pre-pay opening and closing or making the cemetery private for Eaton only. Staff recommends awarding the contract per Northern Engineering recommendation of Coyote Ridge Construction bid of \$496,759 and authorize to expend up to \$500,000 on the project as needed. Motion made by Trustee Ledall, seconded by Mayor Pro Tem Heid to approve Coyote Ridge Construction bid for the Eaton Cemetery Expansion Phase I, in the amount of \$496,758.62 and authorize to expend up to \$500,000 on the project as needed. Motion carried 5-0.
- 12. Tobacco Age Attorney Avi Rocklin and Chief Kevin Sturch presented a regulation for the Municipal Code concerning the Sale or Distribution of Tobacco Product to persons under twenty-one (21) years of age, which would match the State law. This regulation would not prohibit an individual between the age of 18 to 21 from possession of tobacco products. The Eaton Police Department recommends the approval of Ordinance No. 633.
- Ordinance No. 633 Adding Section 10-4-14 to the Eaton Municipal Code Concerning the Sale or Distribution of Tobacco Products to Persons Under Twenty-One Years of Age

Motion made by Mayor Pro Tem Heid, seconded by Trustee Winter to approve Ordinance No. 633 – Adding Section 10-4-14 to the Eaton Municipal Code Concerning the Sale or Distribution of Tobacco Products to Persons Under Twenty-One Years of Age. Motion carried 5-0.

OLD BUSINESS

13. Roundabout (RAB) Proposed Street Lighting – Northern Engineering, Buddy Vierow presented a memorandum based on direction from the Board in February, to obtain informal quotes on the scope and fees of the project from several electrical

March 16, 2023

OLD BUSINESS CONTINUED

engineering firms. Based on three (3) informal quotes, the scope and fees are anticipated to be between \$5,000-\$10,000. Staff recommend securing an Electrical Engineer to analyze and provide a street lighting model that will meet industry standards and determine the most cost-efficient solution required for this project. Motion made by Trustee Griffith, seconded by Trustee Ledall to approve staff to contract an Electrical Engineer up to \$5,000 to evaluate the street lighting at the RAB. Motion carried 5-0.

STAFF REPORT(S)

- 14. Interim Town Administrator Monthly Report
- 15. Assistant Town Administrator Community events that are Town sponsored, seasonal employee hiring, and April 29th Spring Clean-up should be firm with the approval of shredding by next week. The board was presented Executive Summaries in Fall of 2022 on the Water and Wastewater Master Plans, the plans have been reviewed by Northern Front Range Water Quality Association and are formally approved.
- 16. Chief February 2023 Report & Police Progress in a Power Point presentation and Certified Vin Fee will be addressed at next month's meeting.
- 17. Town Clerk No report.
- 18. Town Attorney New Fine Schedule with the addition of "Jake Brake Fine". Motion made by Mayor Pro Tem Heid, seconded by Trustee Gentry to approve the Eaton Municipal Court Schedule of Fines, Costs and Fees. Motion carried 5-0.
- 19. Finance Director Treasurer Report shows the Cemetery Care Fund balance each month, and once a year a deposit is made for perpetual care onto the CD. March 27th the Town audit will begin. Participating on the NISIP Bond Council, interviewed two bond firms last Tuesday and will interview one firm on Friday, then a recommendation will be given to the participants of the Bond Council Committee on March 27th and then to the board for a decision in April.
- 20. Town Engineer No report.
- 21. Communication Lacey Mays with Slate production update: newsletter, e-newsletters on board recap, Face Book, Next Door, annual report, along with templates; power point, memo, and graphic design. The new website should be up and running at the end of March, first of April.

COUNCIL REPORTS AND REQUEST FOR FUTURE AGENDA ITEMS

- 22. Planning Commission Meeting No meeting held.
- 23. Hometown Revitalization Committee MPT Heid stated that plans are being submitted to the PC Board.
- 24. Great Western Trail/Park Trustee Griffith stated that trail is under construction for final phase and the last bridge will be installed in April.
- 25. Northern Front Range/MPO Mayor Pro Tem Heid report attached.

EXECUTIVE SESSION

Trustee Winter, seconded by Trustee Griffith to move into the executive session to obtain legal advice concerning a potential rate adjustment under the Town of Eaton's Waste Services Agreement with Waste Management of Colorado, Inc, pursuant to C.R.S. § 24-6-402(4)(b) and to determine matters subject to negotiation and instruct negotiators related to the Eaton Housing Authority pursuant to C.R.S. § 24-6-402(4)(e), at 8:36 p.m. Motion carried 5-0.

- 26. An executive session to obtain legal advice concerning a potential rate adjustment under the Town of Eaton's Waste Services Agreement with Waste Management of Colorado, Inc., pursuant to C.R.S. § 24-6-402(4)(b).
- 27. An executive session to determine matters subject to negotiation and instruct negotiation and instruct negotiators related to the Eaton Housing Authority pursuant to C.R.S. § 24-6-402(4)(e).

Mayor Moser asked to let the record show that no other topics were discussed besides the topics listed under executive session, and no decisions were made.

ADJOURN

Mayor Moser moved to adjourn at 9:43 p.m.

Margaret Jane Winter, Town Clerk

Eaton Town Board Agenda Item

TO: Board of Trustees

FROM: Greg Brinck, Assistant Town Administrator

DATE of MEETING: April 20, 2023

TITLE/SUBJECT: SB23-213

DESCRIPTION

SB23-213 is a bill that would remove the Town of Eaton's authority regarding our own land use policies by imposing top-down state standards. This would undermine the policies set by our local officials who were elected by our citizens.

SUMMARY

See attached "Vote NO on SB23-213 | Land Use" CML position paper.

KEY POINTS

- Eaton would be classified as a Tier 2 Urban Municipality
- Accessory Dwelling Units would be a use by right in all zone districts where Eaton allows single-unit detached dwellings.
 - o This would also apply to HOA and covenant controlled subdivisions
- "Unreasonable costs or delays"
 - This vague language is used within the bill that could result in developers passing the burden of development back to the municipality.
- Parking burdens
 - The zoning preemptions prohibits municipalities from requiring additional off street parking.

COST & BUDGET

The use of the phrase "unreasonable costs or delays" could allow developers to shift some of the cost of their development back to the municipality

RECOMMENDATION

Staff recommends the Board approve Resolution 2023-05 opposing SB23-213

NO SB23-213

Vote NO on SB23-213 Land Use

WHAT DOES THE BILL DO?

SB23-213 represents the most sweeping attempt in recent Colorado history to remove local control and home rule authority from elected leaders, professional planning staff, and the people of Colorado. The bill dramatically expands state authority by imposing top-down zoning and land use standards on municipalities, and it puts those decisions into the hands of developer interests and unelected third parties. SB23-213 does not recognize that local governments are best suited to address the needs of their communities, and it flies in the face of local government efforts to solve the affordable housing crisis.

WHY YOU SHOULD VOTE NO

Top-down zoning disregards people: The bill ignores long term local planning efforts and creates a patchwork of residential land use laws for only municipalities that reflect what the state wants, not what the people who live in a municipality want. Residential developments will be allowed based either on a "model code" created by DOLA through a process that is insulated from public feedback or on inflexible minimum standards established in statute. Either way, the bill does away with a tradition of local authority that helps to guide communities to develop in an orderly manner while preserving community character, ensuring growth happens as desired, and protecting community resources. For many municipalities, this means that every residential parcel must accommodate accessory dwelling units or middle housing (up to six-unit buildings). The bill mandates minimum densities and some affordability standards to large swaths of property near rail stations or vague areas called "key corridors." These requirements will interfere with local affordability efforts. All these new mandates are imposed without assurance of adequate water, public safety, or other resources and even prohibit requiring necessary parking. Other vague language jeopardizes reasonable regulations.

More housing (just not now or affordable): Despite being titled "State Land Use Requirements for Affordable Housing," the bill does not require affordability at all and is premised on speculation that developers will build more housing, either passing savings along to Coloradans or causing a market-based decline in housing costs. The bill requires that municipalities incorporate a "menu of strategies" to address affordable housing concerns in their communities to offer flexibility. The menu, however, offers no new powers and will be developed by executive branch agencies without local government involvement. The bill undermines local efforts to create affordable housing if developers find them objectionable and takes away local leverage to incentivize affordable multifamily housing.

DOLA's new powers: DOLA, an agency traditionally seen as a partner and supporter of local governments, will be given extremely broad regulatory authority and oversight powers. The bill removes any pretense of collaboration and makes municipalities subservient to DOLA as the law requires extraordinarily cumbersome reporting standards and subjects local elected bodies to regulatory governance. DOLA is tasked with issuing paradigm-shifting methodologies, guidance, menus of strategies, statewide strategic growth objectives, model codes, rules, and minimum standards based on the recommendations of a multi-agency committee of executive appointees, without any meaningful public input. DOLA is even granted authority to modify statutory minimum standards relating to ADUs, middle housing, and housing in transit-oriented areas and key corridors. DOLA is also tasked with substantial new oversight and enforcement responsibilities including the receipt, review, and approval of various reports, codes, drafts, and final plans. Regulatory zoning tells the people of Colorado that their voice does not matter

Housing without transit: Despite creating mandates for transit-oriented areas and key corridors, nothing in the bill would improve the state's public transit system. The bill supposes that cars will disappear or that public streets will accommodate new residents' vehicles; the bill prohibits municipalities from requiring any new parking.

Tunnel vision ignores local burdens: Land use regulation is a complex process, both substantively and procedurally, that considers wide-ranging issues of importance to a community. The bill uses a heavy hand to make development easier without meaningful regard for affordability, water, the provision of municipal services, education, the preservation of municipal budgets, public infrastructure, protecting communities against displacement or gentrification, or quality of life. Municipalities will be forced to bow to developer demands or expend precious resources in litigation to enforce reasonable local regulations.

Constitutionality: The bill primarily applies to municipalities whose residents have chosen to adopt home rule charters under Art. XX, S. 6 of the Colorado Constitution. Zoning has been long recognized by the Colorado Supreme Court as a matter of local concern where the General Assembly has no authority. The bill disregards both precedent and the meaningful reasons why Coloradans' preference for local control matters.

YOUR OPPOSITION IS RESPECTFULLY REQUESTED

SB23-213 is an overly broad, overly complex series of preemptions and mandates, ignoring the fact that local governments are best suited to shape their communities. The bill disregards the historic investments the state has made in the past two years in creating affordable housing and instead undermines public input and expertise of local leaders.

All levels of government can work together, along with our partners in the business and nonprofit community, to solve the housing crisis without creating unintended, irreparable consequences. SB23-213 is an unprecedented repudiation of decades worth of well settled land use and zoning law, and the General Assembly should instead consider a solution that is the result of true collaboration between the state, local governments, and other partners to find a Colorado solution for housing.

CML Analysis of SB23-213, Land Use

▶ INTRODUCTION

Senate Bill 23-213 includes several subjects but primarily focuses on a central theme: municipal zoning laws caused the housing crisis by not permitting unfettered residential construction and by trying to protect communities and resources. The bill attempts to draw a line from local zoning laws affecting individual parcels of land in dozens of municipalities to "regional imbalances" that "affect equity, pollution, infrastructure costs, and quality of life." The bill does not question the state's involvement in actual statewide problems, but asserts that state regulation of hyper-local matters, imposed through over a dozen regulatory actions with insufficient process, will improve these imbalances and presumes that there will not be significant unintended consequences. This analysis is not a complete list of problems in the bill but represents the most significant elements.

► CML ANALYSIS:

LAND USE BILL WOULD DO LITTLE TO MAKE HOUSING AFFORDABLE

Section 2 of SB23-213 creates a new article 33 in title 29 that imposes top-down standards on some local governments to remove local zoning authority. Despite being titled as requirements for affordable housing, Section 2 doesn't require affordability at all and is premised on speculation that developers will build more housing, either passing savings along to Coloradans or causing a market-based decline in housing costs. Section 2 begins with overbroad and complex definitions and continues to address assessments and planning before imposing mandates and preempting authority to zone land for particular uses.

An uneven strategy

The bill largely applies only to municipalities, and then only to some municipalities and in differing degrees. Municipalities are classified into four basic groups that do not cover all municipalities. The bill's requirements apply to each category, and then subsets of categories, to differing degrees in each part. Identifying where a municipality is classified is a complicated process requiring reference. Whether the bill addresses actual problems in the municipalities included in each category or causes more problems in those municipalities will be difficult to determine. See the last page of this analysis for a list of affected municipalities, reported by Colorado Public Radio.

Geographic Classification of Municipalities

Tier 1 Urban Municipality (T1UM)	Tier 2 Urban Municipality (T2UM)	Rural Resort Job Center (RRJC)	Non-urbanized Municipality (NUM)
In an MPO with a population of at least 1 million	Within an MPO	Not within an MPO	Not within the definition of an urban municipality or a rural resort job center; and
10% of territory in urbanized area with population over 75,000; and	A population between 5,000-25,000; and	A population of at least 1,000	A population of at least 5,000
A population of at least 1,000; or	In a county with a population of at least 250,000	1,200 jobs and a jobs-to-population ratio of at least 64-hundredths; and	
In an MPO with a population under 1 million; and		A transit stop serviced by a transit agency serving two municipalities with at least 20 trips per day	
A population of at least 25,000		,	

The bill grants broad regulatory authority to DOLA

The bill contemplates dozens of regulatory actions, primarily by DOLA. The bill appropriates \$15 million dollars to DOLA; however, it is not clear how that funding will be expended and whether funding for the various regulatory actions is included.

First, the Director of DOLA is tasked with issuing multiple methodologies, guidance, "menus" of strategies, statewide strategic growth objectives, model codes, rules, and minimum standards based on the recommendation of a "multi-agency committee" of executive appointees. Although the bill does not outline a public comment process, DOLA will undergo a rulemaking process that may include a public comment period. The committee's recommendation only involves a limited public process involving public comment, consultation with local governments and experts, and only two hearings, despite having statewide impact and addressing extremely local issues (29-33-108(2)). The bill does not specify which local governments and "local experts" will be consulted, and it is seemingly up to the committee members to choose those experts without any guidelines. There are no requirements to ensure inclusivity, such as meetings during varying hours, meetings in different geographic locations, or outreach to educate and explain proposed recommendations.

Second, the Director of DOLA is granted authority to modify statutory minimum standards relating to accessory dwelling units (ADUs), middle housing, housing in transit-oriented areas, and housing in key corridors. Only token consideration of process is provided.

Third, DOLA is tasked with a substantial amount of new oversight and enforcement responsibility with the receipt, review, and approval of various reports, codes, and draft and final plans.

In addition to DOLA, the Office of Climate Preparedness is directed to develop a natural and agricultural land priorities report that MPOs should apply to achieve connectivity of open space and natural lands and preservation of agricultural land and open space. Counties and municipalities must include natural and agricultural priorities in their master plans in accordance with the state's mandate.

Ambiguous mandates for housing needs assessment & planning

The bill asserts that "assessing and planning for housing needs" is a matter of mixed state and local concern. DOLA will issue methodologies for developing state, regional, and local "housing needs assessments" and then create the assessments every 5 years, beginning December 31, 2024. DOLA will allocate shares of statewide housing needs to regions defined by DOLA and local governments. DOLA will also use local housing needs assessments to mandate "net residential zoning capacities" for key corridors in tier 1 urban municipalities and rural resort job centers (see below for a more detailed analysis).

T1UM, T2UM, and RRJC municipalities must use DOLA's local and regional assessments to inform any required "housing needs plans." DOLA will create guidance for these plans, but the bill includes procedural and extensive, but ambiguous, substantive mandates for their development and adoption, including requirements to describe compliance with the bill's mandates and a "greenfield development analysis." The greenfield development analysis relies on undefined "statewide strategic growth objectives" also developed by DOLA. The bill's limited direct connection to affordability and displacement includes requirements to include a varying number of strategies regarding those issues from state-created "menus" (also developed by DOLA), although RRJC are not required to address displacement. None of the items in the menus provide additional authority to municipalities beyond existing law and given the bill's other restrictions, may inhibit existing authority to plan communities and ensure affordability.

Housing needs plans, a greenfield development analysis, and a concept of natural and agricultural land priorities consistent with state requirements must be included in master plans for T1UM, T2UM, and RRJC.

Counties and municipalities that DOLA groups into rural resort regions are required to participate in "regional housing needs planning process" resulting in a report and commitments that DOLA must review and approve. The bill suggests that this process will encourage participants to address needs through individual or regional strategies, including strategies from "menus" and locations where reduced parking requirements can reduce housing needs. The process will map locations where Article 33's minimum standards for middle housing, transit-oriented areas, and key corridors could meet needs, but later the bill actually indicates that this map would dictate where middle housing standards apply in RRJCs.

Burdensome reporting standards

T1UM, T2UM, and RRJC must collect, track, maintain, and report to DOLA an overwhelming amount of data beginning December 31, 2026. These municipalities must report both the number of permits for new housing and the number of housing construction starts each categorized by structure type, time frames to complete residential permit reviews by housing type, workforce assigned to development review by position time, implementation status of strategies identified in a housing needs plan mandated by the law, zoning information specifying zone districts, allowed uses and densities and "other data," and regional efforts to address housing needs.

"Use by right" would supersede local control

In removing the legislative discretion of municipal governing bodies in making zoning decisions, the bill removes a traditional elements of zoning authority to consider — in their best legislative judgment — consistency with plans, compatibility or harmony of surrounding land uses and development, and strategies for mitigating project impacts. Each of the zoning preemptions also includes a concept of a "use by right," meaning the development approval relies only on "objective standards" that lack any discretionary component. Objective standards prohibit any personal or subjective judgment by a public body or official and must be "uniformly verifiable or ascertainable by reference to an external or uniform benchmark or criterion" that is known before filing of the proposal. Not only does this inhibit local officials from exercising traditional authority, but it also potentially prevents municipalities making critical changes to land use laws to protect their communities that might apply to a pending project.

Zoning preemption No. 1:

Accessory dwelling units — T1UM, T2UM, RRJC, NUM

The bill declares "an increased supply of housing through accessory dwelling units" to be a matter of mixed state and local concern but reflects inadequate study of how ADUs are treated in all subject jurisdictions or what the supply would look like if the bill is enacted. Under the bill, an ADU is an internal, attached, or detached "dwelling unit" providing complete independent living facilities for at least one person that is located on the same lot as a primary residence with provisions for living, sleeping, eating, cooking, and sanitation.

By December 31, 2024, a T1UM, T2UM, and RRJC must change their local laws concerning ADUs to meet the bill's minimum standards (as may be modified by DOLA) or adopt DOLA's model ADU code. The municipalities must report their compliance by that date, subject to DOLA review and approval. Failure to adopt meet the minimum requirements by June 30, 2025, or DOLA's rejection of the jurisdiction's report, means the model code goes into effective immediately; no provision is made for who makes this determination or whether it can be disputed. If the model code is adopted, it must be implemented using "objective procedures" and the municipality cannot have any "local law" that would contravene it. The bill does not account for potential citizen referendum and expressly seeks to preempt local zoning ordinances enacted pursuant to Article XX, Section 6 of the Golorado Constitution.

Developed by June 30, 2024, DOLA's model ADU code will allow ADUs as a "use by right" anywhere a municipality allows single-unit detached dwelling units as of January 1, 2023. The code will provide "objective standards" for approval of the units, so that officials cannot evaluate local conditions to determine if the ADU will cause an unfair burden or be incompatible. The model code cannot require new off-street parking in any subject jurisdiction, even if the ADU is in an area without adequate parking or transit. The model code is not subject to the same minimum standards that apply to municipalities that do not adopt the model code.

The bill establishes minimum standards that attempt to preempt local law if the model code is not voluntarily adopted. DOLA can update minimum standards through rulemaking under an ambiguous "public hearing and comment process."

ADUs are not required to be permitted on the same lot or parcel as middle housing.

Other exemptions apply for parking spaces required by the Americans with Disabilities Act, short-term rental rules, and historic districts.

Minimum Standards for ADUs

ADUs of the greater of 800 square feet or 50% of the primary residence must be allowed as a "use by right" anywhere the municipality allows single-unit, detached dwelling units as of January 1, 2023.

Only "objective standards and objective procedures can apply," meaning that officials cannot evaluate local conditions to determine if the ADU will cause an unfair burden or be incompatible. Municipalities must allow additions to, or conversions of, existing single detached dwelling units and must apply the same design standards that apply to single detached dwelling units.

Municipalities cannot have local laws that treat ADUs more restrictively, "create unreasonable costs or delays" or make ADUs "infeasible," require that primary residences be owner-occupied, require new off-street parking (in T1UM and T2UM), or require side or rear setbacks of more than 5 feet unless needed for health or safety standards.

Zoning preemption No. 2:

"Middle housing" — T1UM and RRJC

The bill declares "an increased supply of housing through middle housing" to be a matter of mixed state and local concern but reflects inadequate study of how "middle housing" is treated in all subject jurisdictions or what the supply would look like if the bill is enacted. Under the bill, "middle housing" is either a single structure with 2-6 separate dwelling units (duplex through sixplex), a townhome, or cottage cluster. A townhome is a dwelling unit in a row of 2 or more attached dwelling units on individual lots with common walls. A cottage cluster is a grouping of at least 4 detached units with a common courtyard, with each unit being smaller than 901 square feet.

By December 31, 2024, a T1UM, and by December 31, 2026, a RRJC, must change their local laws concerning middle housing to meet the bill's minimum standards (as may be modified by DOLA) or adopt DOLA's model middle housing code. The municipalities must report their compliance by that date, subject to DOLA review and approval. Failure to adopt the minimum requirements by June 30, 2025, for a T1UM, or by June 30, 2027, for a RRJC, or DOLA's rejection of the jurisdiction's report, means the model code goes into effect immediately; no provision is made for who makes this determination or whether it can be disputed. If the model code is adopted, it must be implemented using "objective procedures" and the municipality cannot have any "local law" that would contravene it. The bill does not account for potential citizen referendum and expressly seeks to preempt local zoning ordinances enacted pursuant to Article XX, Section 6 of the Colorado Constitution.

Developed by June 30, 2024, DOLA's model middle housing code will allow middle housing as a "use by right" anywhere the municipality allows single-unit detached dwelling units as of January 1, 2023. The code will provide "objective standards" for approval of the units, so that officials cannot evaluate local conditions to determine if the housing will cause an unfair burden or be incompatible. The model code cannot require new off-street parking in any subject jurisdiction, even if the housing is in an area without adequate parking or transit. The model code is not subject to the same minimum standards that apply to municipalities that do not adopt the model code.

The bill establishes minimum standards that attempt to preempt local law if the model code is not voluntarily adopted.

Minimum Standards for Middle Housing

Middle housing of at least 125% of the building area of a single-unit detached dwelling must be allowed as a "use by right" anywhere the T1UM allows single-unit detached dwelling units as of January 1, 2023, or wherever designated in the RRJC's regional housing needs plan (even if the RRJC did not approve it). Only "objective standards and objective procedures can apply," meaning that officials cannot evaluate local conditions to determine if the middle housing type will cause an unfair burden or be incompatible.

Municipalities must allow additions to or conversions of existing single detached dwelling units and must apply the same design standards that apply to single detached dwelling units.

Municipalities must allow properties to be subdivided using objective standards and procedures. Municipalities cannot have local laws that treat middle housing more restrictively, "create unreasonable costs or delays" or make middle housing "infeasible," apply minimum setbacks, lot widths, lot depths, lot size standards, or maximum height standards that are more restrictive than single-unit detached dwellings on the same property, require new off-street parking, or impose footprint restrictions differently than single-unit detached dwellings.

DOLA can update minimum standards through rulemaking under an ambiguous "public hearing and comment process." Middle housing is not required to be permitted on the same lot or parcel as an ADU. Other exemptions apply for parking spaces required by the Americans with Disabilities Act, short-term rental rules, and historic districts. Middle housing requirements will not affect an inclusionary zoning ordinance unless it renders the "development of middle housing financially infeasible." The bill does not define "financially infeasible" and does not explain how a developer must prove that the ordinance makes said development financially infeasible. This could make inclusionary zoning ordinances moot.

Zoning preemption No. 3:

Housing in "transit-oriented areas" — T1UM with fixed rail

The bill declares "an increased supply of housing in transit-oriented areas" to be a matter of mixed state and local concern but reflects no study of how any of the subject jurisdictions treat the topic or what the supply would look like if the bill is enacted. Under the bill, a "transit-oriented area" is a one-half mile boundary from some part of a fixed-rail transit station, including parcels that have at least 25% of their area within the boundary. Unincorporated parcels are not included.

The focus of this part of the bill is on multifamily housing (one or more buildings on one lot with separate living units for 3 or more households) and mixed-income multifamily housing (at least 10% of units are set aside for households earning no more than 80% AMI). Although municipalities with inclusionary zoning ordinances can establish their own threshold and set asides, the bill interferes by setting density standards and inconsistently restricts local inclusionary zoning ordinances based on the financial effect on developers.

By December 31, 2024, a T1UM with a transit-oriented area must change their local laws concerning housing in transit-oriented areas to meet the bill's minimum standards (as may be modified by DOLA) or adopt DOLA's transit-oriented area model code. The municipalities must report their compliance by that date, subject to DOLA review and approval. Failure to adopt meet the minimum requirements by June 30, 2025, or DOLA's rejection of the jurisdiction's report, means the model code goes into effective immediately; no provision is made for who makes this determination or whether it can be disputed. If the model code is adopted, it must be implemented using "objective procedures" and the municipality cannot have any "local law" that would contravene it. The bill does not account for potential citizen referendum and expressly seeks to preempt local zoning ordinances enacted pursuant to Article XX, Section 6 of the Colorado Constitution.

Developed by June 30, 2024, DOLA's transit-oriented area model code will prohibit new-off street parking in transit-oriented areas for multifamily or mixed-income multifamily development, allow minimum density as a "use by right" for multifamily residential (at least 40 units per acre net density) and mixed-income multifamily (at least 60 units per acre net density). Affordable units must be a similar size. This prevents T1UM jurisdictions from influencing multifamily development according to local standards.

The bill establishes minimum standards that attempt to preempt local law if the model code is not voluntarily adopted.

Minimum Standards for Transit-Oriented Areas

A T1UM must legislatively create a zoning district for the transit-oriented area to allow multifamily housing as a "use by right" with a minimum gross density of 40 units per acre for all eligible parcels. Districts can extend outside the transit-oriented area to meet gross density requirements based on development constraints or other planning for transit-compatible uses.

Municipalities cannot have local laws that apply to "create unreasonable costs or delays" or make multifamily in a transit-oriented area or the residential density limits "infeasible" or require new off-street parking.

DOLA can update minimum standards through rulemaking under an ambiguous "public hearing and comment process." Other exemptions apply for parking spaces required by the Americans with Disabilities Act, short-term rental rules, and historic districts. Transit-oriented area requirements will not affect an inclusionary zoning ordinance unless it renders the "development of multifamily housing financially infeasible."

Zoning preemption No. 4:

Housing in "key corridors" — T1UM and RRJC

The bill declares "an increased housing supply in key corridors" to be a matter of mixed state and local concern but reflects no study of how any of the subject jurisdictions treat the topic or what the supply would look like if the bill is enacted. Under the bill, a "key corridor" is an extraordinarily broad concept that is not limited to transit corridors and could undermine the zoning and land use plans of an entire municipality. Key corridors include "frequent transit service areas" as mapped by

DOLA (including in some cases anything within one-quarter mile of a bus route with certain service levels). Key corridors also include any parcel in zone districts that permit commercial uses that are supposedly compatible with residential uses and public or institutional uses. Key corridors also include anything zoned for a mix of uses other than industrial. The definitions used in this part are likely inconsistent with many local zoning codes and could capture very large parts of a community.

The bill suggests some option for the municipality that does not adopt a model code to designate their own key corridors. The bill extent of this discretion is not clear, and all minimum standards described for key corridors apply.

The focus of this part of the bill also focuses on multifamily housing (one or more buildings on one lot with separate living units for 3 or more households) and mixed-income multifamily housing (at least 10% of units are set aside for households earning no more than 80% AMI). Although municipalities with inclusionary zoning ordinances can establish their own threshold and set asides, the bill interferes by setting density standards, set asides, and AMI requirements, and inconsistently restricts local inclusionary zoning ordinances based on the financial effect on developers.

By December 31, 2026, T1UM and RRJC must change their local laws concerning housing in key corridors to meet the minimum standards that DOLA must develop or adopt DOLA's key corridor model code. The municipalities must report their compliance by that date, subject to DOLA review and approval. Failure to adopt and meet the minimum requirements by June 30, 2027, or DOLA's rejection of the jurisdiction's report, means the model code goes into effective immediately; no provision is made for who makes this determination or whether it can be disputed. If the model code is adopted, it must be implemented using "objective procedures" and the municipality cannot have any "local law" that would contravene it. The bill does not account for potential citizen referendum and expressly seeks to preempt local zoning ordinances enacted pursuant to Article XX, Section 6 of the Colorado Constitution.

Developed by June 30, 2024, DOLA's key corridor model code will set minimum residential density limits for multifamily housing as a "use by right," an allowable minimum residential density limit for mixed-income multifamily housing at least 50% greater than the multifamily minimum density as a "use by right," requirements for set asides for low- and moderate-income households.

By June 30, 2025, DOLA will establish key corridor minimum standards that attempt to preempt local law if the model code is not voluntarily adopted. The minimum standards appear to be targeted to take over municipal land use planning in broad swaths of territory and must include: guidance to encourage regional strategies for key corridors, a "net residential zoning capacity" for each municipality based on that municipality's local housing needs assessment, and "any additional standards" that DOLA "deems necessary," like a minimum residential density limit and minimum district size.

Minimum Standards for Key Corridors

A T1UM must legislatively create a zoning district within key corridors to allow multifamily housing as a "use by right" that satisfies DOLA's mandated net residential zoning capacity and requirements that DOLA may impose.

A RRJC must allow multifamily housing as a "use by right" wherever a key corridor is designated in the RRJC's regional housing needs plan (even if the RRJC did not approve it).

Municipalities can allow different density within the key corridor if minimum standards are satisfied.

Municipalities cannot have local laws that apply to "create unreasonable costs or delays" or make multifamily in a key corridor "infeasible."

For key corridors only, the bill prohibits new off-street parking in key corridors for any use.

Other exemptions apply for parking spaces required by the Americans with Disabilities Act, short-term rental rules, and historic districts. Key corridor requirements will not affect an inclusionary zoning ordinance unless it renders the "development of multifamily housing financially infeasible."

What's exempt from SB23-213?

Each part of the proposed article 33 of title 29 includes varying degrees of exemptions. Except for ADU requirements, a common exemption is for "standard exempt parcels," or those that are outside an urbanized area, not served by domestic water or sewer treatment, have an agricultural zoning designation as of January 1, 2023, are noted as a "high risk, high very high, or very high risk" for wildfire by the state forest service (which does not appear to include much land covered by the bill), or in a floodway or 100-year floodplain identified by FEMA. The bill does not account for other local conditions.

For transit-oriented areas, standards also do not apply in park and open space or on properties subject to conservation easements. For key corridors, standards also do not apply on a site that is on or adjacent to a site used or permitted for industrial use or designated for heavy industrial use in a master plan adopted before 2023.

"Unreasonable costs or delays" and feasibility

Each of the zoning preemptions includes a dangerous concept that preempts any local land use law that "individually or cumulatively create unreasonable costs or delays" or that would make the permitting, siting, or construction of the housing type "infeasible." This language recklessly exposes municipalities to significant liability, could undermine local efforts to create affordable housing, and risks forcing the public to bear burdens that should be borne by developers. It is unclear whether safety standards, impact fees, fees for water or municipal services, or other important local standards could fall prey to this type of language. Several provisions in the middle housing, transit-oriented areas, and key corridor parts also suggest that financial burdens on developers imposed by local inclusionary zoning ordinances will invalidate those local laws.

Interference

Each of the zoning preemptions includes another dangerous concept that would preempt a municipality from amending, developing, or even interpreting a local law "in a manner that would interfere with the intent" of the part. Broad and careless language could have significant unintended consequences and expose municipalities to significant risk.

Parking burdens

Each zoning preemption prohibits a municipality from requiring new off-street parking as part of a housing development approval. The "key corridor" provision appears to prohibit parking requirements for any development approval in a key corridor, not just housing. The bill does not limit these restrictions to any guarantee of public transit availability. The bill does not identify where cars will go or how municipalities are to address the burdens on public streets, public safety, and quality of life. Each zoning mandate permits parking standards required by the Americans with Disabilities Act.

Water, wastewater, and stormwater burdens

Each zoning preemption allows a municipality to apply to DOLA for an unclear "extension of applicable requirements" based on deficient water, sewer, or stormwater "services." The bill does not seem to account for any other burden on public infrastructure or services. To obtain the extension, the municipality must have a plan to remedy the deficiency on a specific timeline and must show that it cannot serve other, less efficient housing types than those provided in the mandate. The provisions do not account for pre-existing service obligations to those other housing types or rights of their owners. These provisions also do not consider long-term planning and suggest that municipalities must fund development to accommodate the state mandate.

Manufactured & modular housing

Section 3 requires the division of housing to create a report by June 30, 2024, on "opportunities and barriers" in current state law concerning manufactured homes, modular homes, and tiny homes.

Sections 4 and 6 remove financial assurance requirements for manufacturers of factory-built structures (not necessarily limited to residential structures). Under current law, those assurances are payable to the division if the manufacturer fails to deliver a structure or refund a down payment or ceases doing business.

Section 5 adds "final construction plan reviews" to the scope of quality assurance representatives approved by the Division of Housing relating to factory-built structures. The impact of this addition is not clear.

Section 11 amends current law to mandate that municipalities address manufactured and modular housing in the same manner as site-built homes. Municipalities must use "objective standards" and an administrative review process equivalent to site-built homes, unless a subjective review process is used for site-built homes. More restrictive standards than are applied to site-built homes are prohibited, including zoning and subdivision laws and "other regulation affecting development" such as requiring permanent foundations, minimum floor space, home size or sectional requirements, "improvement location standards," and side yard or setback standards. Despite allowing for equivalency with site-built homes, the bill removes existing language that ensures authority to enact consistent zoning, developmental, use, aesthetic, or historical standards that are applicable to existing and new housing. The categorization of municipalities in Section 2 does not apply to these amendments.

Preemption of planned unit development zoning

Section 7 amends the Planned United Development Act at CRS 24-67-105(5.5) to provide that PUDs with residential uses cannot restrict ADUs, middle housing, housing in transit-oriented areas, or housing in key corridors in a manner prohibited by the proposed article 33 of title 29. It is not clear whether this applies only to PUDs in jurisdictions covered by proposed article 33 or more broadly.

Preemption of residential occupancy limits

Section 8 creates CRS 29-20-110 that would preempt counties and municipalities from placing residential occupancy limits on "dwellings" that differentiate between occupants based on family relationship (other than short term rental restrictions). Here, a "dwelling" is defined as any improved property used or intended to be used as a residence, but in Section 2 a different definition of "dwelling" is used. (a single unit providing complete independent living facility

No commitment to use state-controlled property for affordable housing

Section 10 permits statutory municipalities to sell municipal property held for a government purpose (other than park property) without an election if the purpose is to develop affordable housing. The categorization of municipalities in Section 2 does not apply to these amendments. The state makes no commitment to the use of state-controlled property for affordable housing in the bill.

A narrowing of municipal zoning authority

In addition to Section 2's broad preemptions and mandates, Section 13 bluntly narrows the traditional zoning authority of municipalities by prohibiting T1UM and T2UM from imposing minimum square footage requirements for residential units unless "necessary for health and safety" in the municipality. The bill would not allow those municipalities to address issues relating to their communities' welfare.

Undefined process for creating master plans

Sections 9 and 12 amend Titles 30 and 31 regarding county and municipal master plans. The categorization of municipalities in Section 2 does not apply to these amendments. Counties and municipalities must ensure an undefined "inclusive process" by consulting with housing authorities, nongovernmental organizations, and local governments in the creation of the master plan. Master planning already involves heavy public engagement.

Counties and municipalities must include, for plans after June 30, 2024, water items including the location and extent of water supply, a water supply element and conservation policies, and priorities for natural and agricultural land in accordance with the state's natural and agricultural land priorities report. Counties over 250,000 in population must include a "greenfield development analysis."

Section 12 also addresses the inclusion of housing needs plans, a greenfield development analysis, and a concept of natural and agricultural land priorities following the state's natural and agricultural land priorities report.

DOLA must receive draft and final plans and is required to review plans for compliance.

New reporting requirements for water loss accounting

Section 14 requires covered entities (including municipal and special district water providers) to provide and validate water loss audit reports to the Colorado Water Conservation Board. The board will adopt standards for validation of reports, technical qualifications, and methods by January 1, 2025. Some funding is provided for assistance in validation and for technical training and assistance to guide water loss programs.

Invalidation of HOA housing decisions

Section 15 would invalidate common interest community limitations on ADUs, middle housing, housing in transit-oriented areas, and housing in key corridors.

Transportation planning and grants. Section 16 requires the transportation commission to include "statewide strategic growth objectives relating to regionally significant transportation projects" in the ten-year plans for existing and future transportation systems created under CRS 43-1-106(15)(d). It is not clear whether those objectives are the same created by DOLA under Section 2.

Section 17 requires the department of transportation to ensure that grant prioritization criteria are "consistent with state strategic growth objectives" by December 31, 2024. It is not clear whether those objectives are the same created by DOLA under Section 2.

Section 18 requires regional transportation plans and the statewide transportation plan under CRS 43-1-1103, beginning December 31, 2024, to address and ensure consistency with state strategic growth objectives. At least for the regional plans, the objectives are those determined by DOLA under the proposed CRS 29-33-107.

Section 19 requires that projects funded from the multimodal transportation options under CRS 44-4-1103 be "consistent with state strategic growth objectives." It is not clear whether those objectives are the same created by DOLA under Section 2.

Inadequate funding

Section 20 appropriates \$15 million for DOLA to provide technical assistance under the proposed CRS 29-33-111(3). The extensive amount of code revision, reporting, plan development, and compliance with various mandates required by the bill in covered municipalities has an unknown cost that would certainly exceed this funding. The funding will not address impacts

to infrastructure, public services, and quality of life in municipalities or litigation costs arising from the bill. The funding does not address the major overhaul of DOLA's mission and authority.

Safety clause prevents voters from weighing in

Section 21 includes a safety clause, preventing voters from exercising the right of referendum. Local zoning ordinances on the same issues covered by the bill are subject to the reserved constitutional power of referendum.

TOWN OF EATON, COLORADO RESOLUTION NO. 2023-05

RESOLUTION OPPOSING STATEWIDE LAND USE AND ZONING PREEMPTIONS IN SENATE BILL23-213

WHEREAS, the Town of Eaton, Colorado (the "Town") is a municipal corporation duly organized and existing under the Constitution and laws of the State of Colorado; and

WHEREAS, the Town Board of Trustees ("Town Board") constitutes the legislative body of the Town with authority to set the policies of the Town; and

WHEREAS, for a century, the State of Colorado has committed both in statute and in the state constitution to the local control of land use planning and zoning because local governments are closest to the land and to the people that occupy the land; and

WHEREAS, zoning and land use cannot be viewed separately from the impacts of proposed uses of land on surrounding properties and a community as a whole, including the ability to ensure adequate water and utilities; to provide enough public safety services, schools, and recreational services; to make sure that sufficient and safe infrastructure is available to handle increased population or more intense uses; to align development with the community's economic goals; to prevent displacement of existing people; to preserve important historical sites; and to protect open space and the environment in general; and

WHEREAS, on March 22, 2023, Senate Bill 23-213 was introduced; and

WHEREAS, Senate Bill 23-213 would place statewide mandates on hyper local land use matters and substitute the judgment of legislators and state regulators who lack the understanding needed to make the right decisions for the Town; and

WHEREAS, Senate Bill 23-213 would undermine long-range planning efforts and severely limit the Town's ability to maintain reasonable zoning regulations to ensure a high quality of life and sound economic environment for current and future residents, workers, and business owners; and

WHEREAS, Senate Bill 23-213 silences the voices of the Town's residents by taking away the right to be heard at public hearings on zoning matters or to use their constitutional rights of initiative or referendum to address zoning and land use matters; and

WHEREAS, the Town Board finds that adoption of this Resolution, opposing Senate Bill 23-231, is in the best interests of the Town.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN BOARD OF TRUSTEES OF THE TOWN OF EATON, COLORADO, THAT:

<u>Section 1</u>. The Town of Eaton's position is that municipalities are best suited to determine appropriate zoning laws for their respective communities and that collaboration and cooperation—not top-down statewide mandates and giveaways to special interests—are the solution to Colorado's affordable housing problem; and

<u>Section 2</u>. The Town of Eaton opposes Senate Bill 23-213 and strongly urges its legislators to vote NO on this unprecedented and irresponsible preemption.

RESOLVED, PASSED AND ADOPTED this 20th day of April, 2023.

ATTEST:	Scott E. Moser, Mayor	
Margaret Jane Winter, Town Clerk		

Eaton Town Board Agenda Item

то:	Board of Trustees
FROM:	Faith Smith
DATE of MEETING:	04/20/2023
TITLE/SUBJECT:	Csafe account Colorado Core Account

DESCRIPTION

To create a Colorado Core Account with CSAFE and authorize the transfer of funds. Local governments are allowed to participate in local government investment "pools" such as ColoTrust and CSAFE (Colorado Surplus Asset Fund Trust) to provide a safe easily accessible investment that yields interest over what banks can typically generate.

SUMMARY

At present a significant portion of the Town's funds are held at a local institution and earning little interest in this inflationary environment. We currently have an interest account with ColoTrust, with an average yield end of March 4.8 and we would like to diversify our portfolio and keep funds liquid and safe. The CSAFE, Colorado Core, is currently yielding 5.02%.

COST & BUDGET

There is no adverse impact on the Town's budget. The additional interest earning would bring in unanticipated revenues. Staff will monitor the amounts to be invested to provide for operational and capital demands for cash.

RECOMMENDATION

Setting up the account and transferring funds consistent with cash requirements for operations and capital projects.

TWO FUNDS FOR YOUR CASH AND INVESTMENTS

TOWN OF EATON, COLORADO RESOLUTION NO. 2023-06

RESOLUTION CONCERNING PARTICIPATION IN THE COLORADO SURPLUS ASSET FUND TRUST

WHEREAS, the Town of Eaton, Colorado (the "Town") is a municipal corporation duly organized and existing under the Constitution and laws of the State of Colorado; and

WHEREAS, the Town Board of Trustees ("Town Board") constitutes the legislative body of the Town with authority to set the policies of the Town; and

WHEREAS, pursuant to the provisions of C.R.S. Section 24-75-601 and 701, et seq., as amended, and C.R.S. 24-75-702, et seq., as amended, a local government entity is authorized to pool any moneys in its treasury, which are currently surplus funds and not immediately required to be disbursed, with similar moneys from other local government entities in order for these entities to take advantage of short-term investments and maximize net interest earnings; and

WHEREAS, the Town Finance Director recommends that the Town to pool its funds with other local government entities by becoming a participant in the Colorado Surplus Asset Fund Trust, a common law trust under the laws of the State of Colorado ("CSAFE"); and

WHEREAS, based on the recommendation of the Town Finance Director, the Town Board desires to participate in CSAFE, formed in accordance with the aforementioned statutes, in order to pool its surplus funds with other local government entities; and

WHEREAS, the Town Board finds that adoption of this Resolution is in the best interests of the Town.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN BOARD OF TRUSTEES OF THE TOWN OF EATON, COLORADO, THAT:

Section 1. The Town of Eaton shall hereinafter be authorized to participate in CSAFE and to thereby pool its funds with other local governmental entities.

Section 2. The Town Administrator shall be: (i) authorized and directed to execute an indenture of trust and any other documents reasonably necessary to establish an account with CSAFE, (ii) designated the "Treasurer" as that term will be defined in the indenture of trust, (iii) authorized to invest money from the Town's accounts, from time to time, which are not immediately required to be disbursed, by purchasing shares of CSAFE and (iv) authorized to redeem, from time to time, part or all of those shares as funds are needed for other purposes.

RESOLVED, PASSED AND ADOPTED this 20th day of April, 2023.

ATTEST:	Scott E. Moser, Mayor	-
Margaret Jane Winter, Town Clerk
