

Automatic Point Reduction

For violations of the Model Traffic Code, the Eaton Town Board has approved an automatic point reduction system. This is essentially a plea agreement situation. It requires that the Defendant pay their fine within 20 days of the issue of the summons. If the Court Clerk receives the payment within the 20 days, the number of points assessed against your license will be reduced automatically. Two points will be taken away from any violation with more than four points. Any two-point violation will be reduced to one point. For example, a six-point violation paid within 20 days would become a four-point assessment.
