

# Pothole Repairs

News Release Date

02-22-2024

The Town will fill potholes as weather allows, but the freezing and thaw cycle of Colorado winters is not ideal for patching. The Public Works department will fill some priority potholes on particularly warm days.

The Town does not maintain alleys in the winter, as grading and additional road bases will be rutted and washed out. The Town will perform alley maintenance in the spring when conditions are more ideal.
