

Makerspace Laser Cutting Certification Quiz

For you to become certified to use the Glowforge Pro Laser Cutter, you must answer each question in the quiz below and get 100% correct. You may take the quiz as many times as you need in order to pass. Laser Cutter certification is good for one year, then you must be re-certified.

1. True/False: It is okay to put things on top of the Glowforge Pro?
2. If you schedule a reservation to use the Glowforge from 12pm – 1pm when should your project be finished?
3. What is the main file type to use with the Glowforge?
4. What will you do if the machine is making bad noises, excessive smoking, or your design is printing incorrectly?
5. Is it safe to stare directly at the laser while it is cutting?
6. How many projects are you allowed to do per week?
7. Can you stack materials inside of the Glowforge?
8. What is the main material we use with the Glowforge Laser Cutter?
9. True/False: It is okay to open the Glowforge Laser Cutter while it's cutting.
10. True/False: When I make my reservation it is only for me. I cannot bring my friends in to use it with me.
