

Eaton Hometown Revitalization Committee

The Hometown Revitalization Committee was created by the Eaton Town Board of Trustees to provide assistance and recommendations regarding development and redevelopment of commercial areas. The Committee's responsibility is to advise on matters related to revitalizing commercial areas in the town, like improving existing commercial areas, attracting new commercial and retail opportunities, making physical improvements to commercial areas, marketing, promoting community events, recommending financial policies or capital expenditures to support revitalization, and medium and long term planning. The Hometown Revitalization Committee consists of seven members: two members shall be Board Trustees, and five shall be residents of the Town, own property in the Town, or be an owner/manager of a business in Town.

The EHRC meets the first Monday of every month in the Carsten Board Room at 6:00pm.
